

## What is the vision and where are the gaps?

Turn a series of seperate trails into a Countywide network

## Gaps to fill:

- Property acquisition
- Trailhead facilities
- Trail improvements
- Federal design standards

## What are the benefits?

- Economic growth (Davis County)
  - Leisure and hospitality sales in Davis County contributed \$583,455,665
  - 55% of every \$1 spent on recreation stays in the local economy
  - Antelope Island: 54.2% increase in visitorship, the 3rd most visited State Park in 2020
- Property values
  - Alpine City and Development example
- Preservation of and access to a valuable natural, public resource
- Resident and visitor wellbeing
  - Utah State University Wellbeing Project findings

## Davis County is primed for trail expansion

- 500 miles of current trail inventory throughout the County
- 13 of 15 Davis County cities have trail master plans
  - 10 of 15 have dedicated revenue sources that could be used for trails through RAP taxes, bond proceeds, or earmarked funds.
- Davis County is proposing to complete 55 miles of the Bonneville Shoreline Trail
  - 27 miles on Forest Service land
  - 18 miles will need to be built on private property, municipal, or other non-federal land.
